Since starting work as a lawyer, Dr. Jürgen Rieg has devoted himself to business law and especially to corporate law, reflecting his interest in business and the related entrepreneurial and strategic considerations. Having worked at a major law firm during his early career, he consciously chose to move to a smaller, highly motivated and agile unit.

Dr. Jürgen Rieg provides comprehensive advice on corporate law to enterprises and entrepreneurs alike, from their foundation through to corporate restructuring projects, investments and disinvestments as well as all kinds of transfer, whether through sale or succession. He also represents our clients in disputes before the courts of law and arbitration tribunals. A further central area of his work is advice on regulatory issues under the law on money laundering.
